

## Maryland Revolutionary Tax Records

Subcommittee of Revolutionary Taxes, Genealogy Committee, National Society Sons of the American Revolution

November 24, 2013

The Maryland State Archives holds a number of Revolutionary tax records. The Subcommittee on Revolutionary Taxes has evaluated most, if not all of these records and determined that a significant number of them were for taxes that supported the War or honored a request of the Continental Congress. Such records provide a basis for Patriotic Service for an ancestor for the Sons of the American Revolution.

Many lists that provide a basis for Patriotic Service are available, courtesy of the Maryland State Archives, in the SAR Library in Louisville and posted by the Maryland Society SAR, at: <http://www.marylandsar.org/marylandtaxlists1783>. Plans are to make all of these records available. The Maryland and District of Columbia Societies, Sons of the American Revolution provided funding.

The purpose of this document is to list concisely those records that have been determined to provide a basis for Patriotic Service and those which have not. For those that do provide a basis for Patriotic Service, an explanation is provided in the introductory notes at the beginning of that Maryland PDF tax list found at the SAR Library and on the Maryland Society SAR website. Detailed instructions are also provided in the introductory notes about which pages to submit as evidence of service for an ancestor meeting SAR Patriotic Service requirements. Some records also contain names of people who do not qualify, but are also listed. These include paupers, who were exempt from taxes, people charged a penalty on their state tax, and men reported on sub-lists of those over 18 and under 21. A very brief explanation of why certain lists have not been deemed to provide a basis for Patriotic Service is also provided below.

## Tax Records that **DO NOT** Provide a Basis for Patriotic Service

---

Levy lists, books, and papers document the support of civil functions at the county level. Although county taxes do not qualify as supporting the War or addressing requests of the Continental Congress, the disbursements are a valuable source of civil services. For the Revolutionary period of 1775 through 1783, we have found levy records for only five counties and not all of these actually contain tax lists. Most of those who are listed are insolvents whose names had been turned over to the sheriff for collection. All of the levy records identified for 1775 through 1783 are listed below, whether a tax list is included or not.

County	Year and Title	Maryland State Archives Citation	Hundreds / Districts
Baltimore	1776, 1780 and 1783 Levy Lists	Maryland State Archives Citation: Baltimore County, Court (Levy List), MSA C362-4 through 6, Location 02/59/10/001.	
Kent	1758 - 1784 Levy Lists	Maryland State Archives Citation: Kent County, Court (Levy List), MSA C1072-3, Location 01/15/04/012; also on microfilm reel CR 50569.	
Montgomery	1777 - 1780 Levy Lists	Maryland State Archives Citation: Montgomery County, Court (Levy List), MSA C1131-1 through 5, Locations 01/18/14/046 (1777) and 01/18/14/023 (1778-1780); also 1778-1780 on microfilm reel CR 12256-2 through 5.	
Prince George's	1760 - 1794 Levy Book	Maryland State Archives Citation: Prince George's County, Court (Levy Book), MSA C1245-2, Location 01/30/13/034.

The returns do conform to the requirements of the 1783 Supply Tax in the columns of taxable property and the mandatory valuation of slaves by age and gender categories. The Horsepen Hundred list is undated but the Maryland State Archives has classified it as a 1783 list; the second list does bear the year 1783 in two places on a page at the beginning that contains many scribbled notes. Further research and analysis may confirm that one or both of these returns were for the supply tax.</i>	<ul style="list-style-type: none"> <li>• Horsepen Hundred</li> <li>• Eastern branch &amp; Rock Creek Hundreds (perhaps)</li> </ul>
