- **And whereas** we are desirous, upon all occasions, to testify our royal sense and approbation of the conduct and bravery of the officers and soldiers of our armies, and to reward the same, we do hereby command and empower our governors of the said three new colonies, and all other our governors of our said provinces on the continent of North America, to grant without fee or reward, to such reduced officers as have served in North America during the late war, and to such private soldiers as have been, or shall be disbanded in America; and are actually residing there, and shall personally apply for the same, the following quantities of lands, subject at the expiration of ten years, to the same quitrents as other lands are subject to in the province within which they are granted, as also subject to the same conditions of cultivation and improvement, viz.
- To every person having the rank of a field officer, five thousand acres; to every captain, three thousand acres; to every subaltern or staff officer, two thousand acres; to every non-commissioned officer, two hundred acres; to every private man fifty acres.
- We do likewise authorize and require the governors and commanders in chief of all our said colonies upon the continent of North America, to grant the like quantities of land, and upon the same conditions, to such reduced officers of our navy, of like rank as served on board our ships of war in North America at the times of the reduction of Louisbourg and Quebec in the late war, and who shall personally apply to our respective governors for such grants.

LAND CLAIMS PRIOR TO THE ESTABLISHMENT OF THE VIRGINIA LAND OFFICE

As “various & vague claims to unpatented land under the former and present government may produce tedious and infinite litigation and disputes, and in the mean time purchasers would be discouraged from taking up lands upon terms lately prescribed by law, whereby the fund to be raised in aid of the taxes for discharging the public debt, would be in great measure frustrated”, the Virginia General Assembly approved legislation in May 1779 that addressed early land claims prior to the establishment of the land patenting process.

EARLY KENTUCKY LAND CLAIMS

Key Provisions of Land Law 1779 (A):

- **All surveys upon any of the western waters prior to January 1, 1778, based on Entries filed with the county surveyor prior to October 26, 1763, would be honored. There was a 400 acre limit. Authorizing Warrants had to be: (1) issued under the King's Proclamation; (2) issued by any former Governor of Virginia; or (3) purchased as Treasury Rights. (*Section I*)**
- **Future Proclamation claims were limited to Virginia veterans or Warrants issued by Virginia Governors. This law excluded land claims for service in companies or militia detachments. (*Section III*)**

- **Bona fide settlers ‘upon the western waters’ prior to January 1, 1778, were entitled to 400 acres of land including their settlement. Proof of planting a crop of corn or a residency of at least one year was required. (*Sections IV & V*)**
- **Settlers could purchase a preemption warrant to patent an additional 1000 acres adjoining their settlement claim. (*Section V*)**
- **Persons who settled ‘upon the western waters’ after January 1, 1778, were entitled to a 400 acre Preemption Warrant claim which included their settlement. (*Section V*)**
- **Persons who had “marked out” claims and built any house or hut or made any other improvements prior to January 1, 1778, were entitled to one 1000 acre preemption warrant if the Land Commission approved their claim. (*Section V*) Note: This covered “chop claims” as well as lottery cabins.**
- **All locations (Entries) made by officers & soldiers upon lands of actual settlers were declared void. (*Section V*)**

- VIII. **And whereas** the claims of various persons to the lands herein allowed to the inhabitants, in consideration of their settlements, and of those who, by this act, are entitled to preemption at the state price, as well as of the settlers on the lands surveyed for sundry companies by orders of council as aforesaid, may occasion numerous disputes, the determination of which depending upon evidence, which cannot, without great charge and trouble, be collected, but the neighborhood of such lands will be most speedily and properly made by commissioners in the respective counties; **be it enacted, that the counties on the western waters shall be allotted into districts, to wit: the counties of Monongalia; Yohogania, and Ohio, into one district; the counties of Augusta, Botetourt, and Greenbrier, into one district; the counties of Washington and Montgomery, into one other district; and the county of Kentucky, shall be another district;** for each of which district, the governor, with the advice of the council, shall appoint four commissioners under the seal of the commonwealth, not being inhabitants of such district (any three of whom may act) to continue in office eight months from the end of this present session of assembly, for the purpose of collecting, adjusting, and determining such claims, and four months thereafter for the purpose of adjusting the claims of settlers on lands surveyed for the aforesaid companies. (*Reference: "Virginia Land Law A", 1779*)
- The Land Commissioners for the Kentucky District heard claims for Certificates of Settlement & Preemption Warrants from October 14, 1779 thru January 26, 1780. Their circuit included St. Asaph (or Logan's Fort), Harrodsburg, Falls of the Ohio (Louisville), Boonesborough, & Bryant's Station near Lexington.

REVOLUTIONARY WAR WARRANTS ISSUED TO VIRGINIA VETERANS, HEIRS, AND ASSIGNEES & THE ESTABLISHMENT OF THE VIRGINIA MILITARY DISTRICT IN KENTUCKY

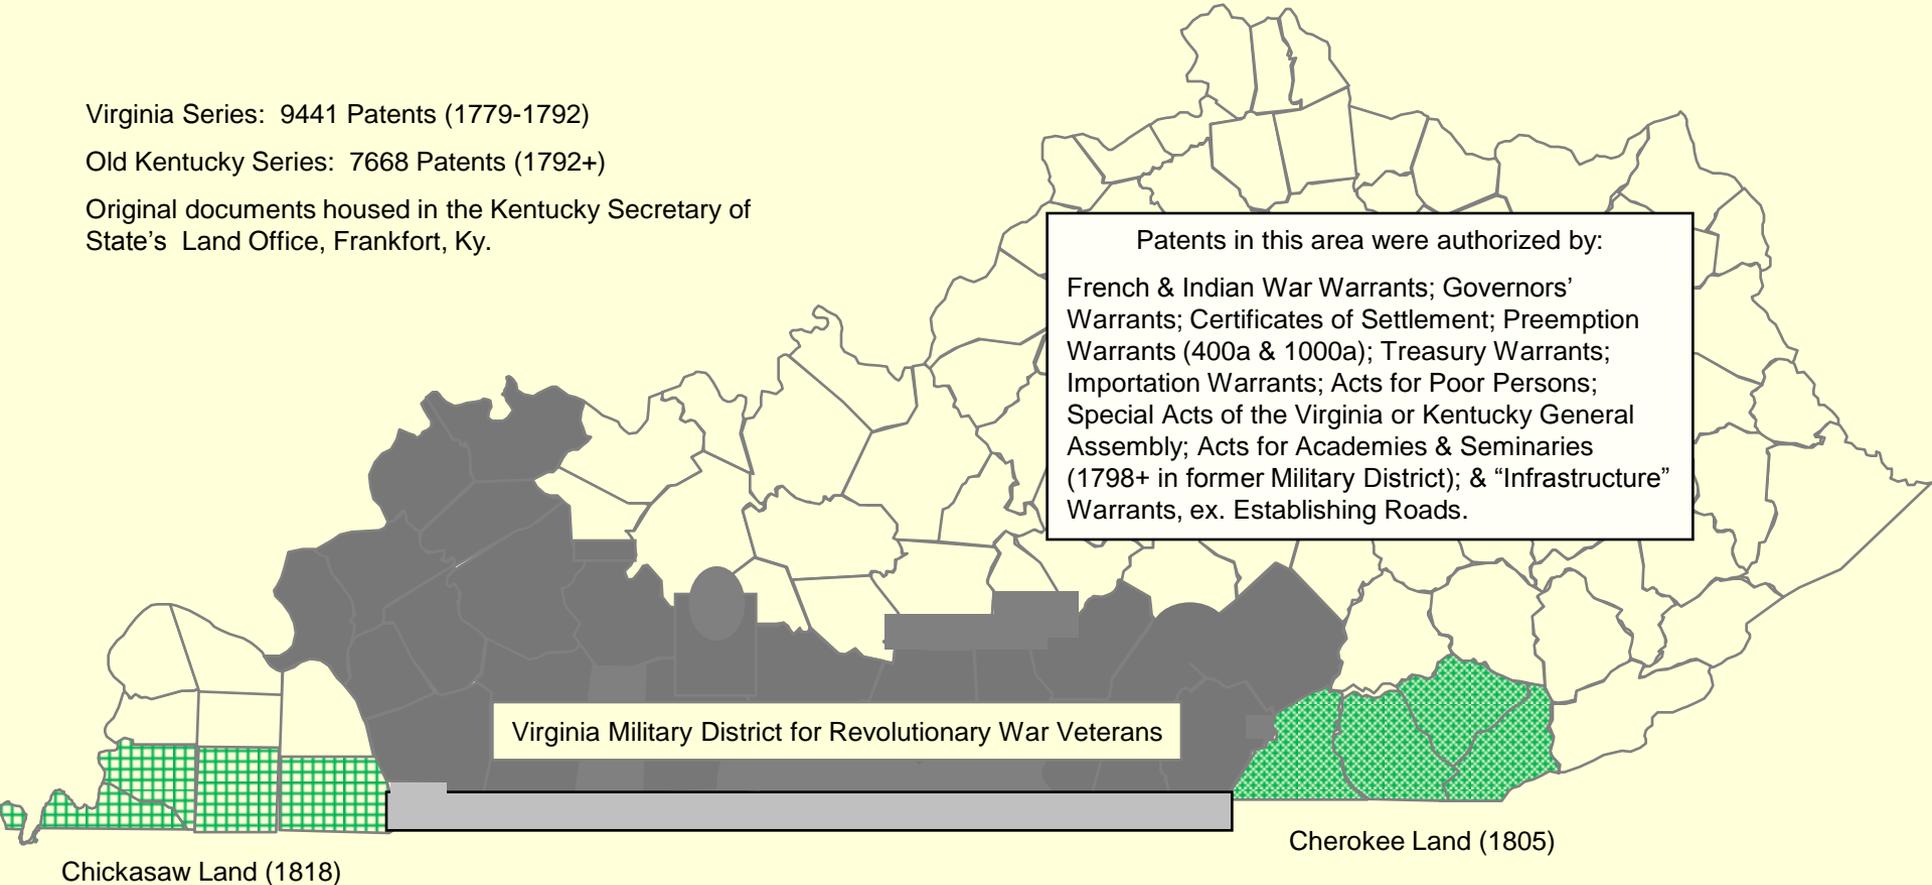

III.....No entry or location of land shall be admitted within the county and limits of the Cherokee Indians, or on the north west side of the Ohio River, or on the lands reserved by act of the assembly for any particular nation or tribe of Indians, or on the lands granted by law to Richard Henderson and company, or in that tract of country reserved by resolution of the general assembly for the benefit of the troops serving in the present war, and bounded by the Green River and a south east course from the head thereof to the Cumberland Mountains; with the said mountains to the Carolina line, with the Carolina line to the Cherokee or Tennessee River; with the said river to the Ohio River, and with the Ohio to the said Green River, until the farther order of the general assembly. (*Virginia Land Law B, 1779*)

KENTUCKY LAND PATENTS: Virginia & Old Kentucky Series

Virginia Series: 9441 Patents (1779-1792)

Old Kentucky Series: 7668 Patents (1792+)

Original documents housed in the Kentucky Secretary of State's Land Office, Frankfort, Ky.

Location of Military District: "Southeast course from the head of Green River to the Cumberland mountains; with the said mountains to the Carolina line; with the line to the Cherokee or Tennessee River; with the said River to the said Green river; until the farther order." Ref: Virginia Land Law of 1779.

Notes: (1) Some Military Patents extend to the 36° 30' parallel into Tennessee due to the "former Kentucky boundary." (2) Although the eastern boundary of the Military District set the line as the Cumberland Mountains, the Land Law further stated no land could be entered or located within the county & limits of the Cherokee Indians. Portions of the shaded counties in eastern Kentucky were ceded in 1805 under the Tellico Treaty. (3) Soldiers who had settled in the southern counties of the Jackson Purchase had to wait until 1818 to patent their land. Their patents comprise the "West of Tennessee River Military Series."

Legislation passed by the Virginia General Assembly & research by Lloyd D. Bockstruck indicates Virginia paid the following bounties for service in the Revolutionary War:

- Sailor who served his 3 yr enlistment or to the end of the war -- 100 acres
- Soldier who served his 3 yr enlistment or to the end of the war -- 100 acres
- Noncommissioned officer who enlisted & served his 3 yr enlistment -- 200 acres
- Sailor who served throughout the war -- 400 acres
- Soldier who served throughout the war -- 400 acres
- Noncommissioned officer who served throughout the war -- 400 acres
- Subaltern-Cornet -- 2000 acres
- Subaltern-Ensign -- 2000 to 2666 acres
- Subaltern-Lieutenant -- 2000 to 2666 acres
- Surgeon's Mate -- 2666 to 8000 acres
- Surgeon -- 2666 to 8000 acres
- Chaplain -- 2666 to 8000 acres
- Captain -- 3000 to 4666 acres
- Major -- 4000 to 5333 acres
- Lt. Colonel -- 4500 to 6666 acres
- Colonel -- 5000 to 8888 acres
- Brigadier General -- 10,000 acres +
- Major General -- 15,000 to 17,500 acres

Virginia Revolutionary War Warrants: Per Rank

Note: Several soldiers received multiple warrants due to additional bounty land awards or replacement of lost warrants. This listing, compiled from the Kentucky Land Office Revolutionary War Warrants Database, reflects rank identification rather than unique individual service. Warrants issued by Virginia after October 29, 1793, are not included.

Resolution passed by the Virginia General Assembly, 2 January 1781:

“That in case the quantity of good lands of the southeast side of the Ohio upon the waters of Cumberland river, and between the Green River and the Tennessee River, which have been reserved by law for the Virginia troops upon continental establishment, and upon their own state establishment, should (from the North Carolina line bearing in further upon the Cumberland lands than was expected) prove insufficient for their legal bounties, the deficiency shall be made up to the said troops in good lands, to be laid off between the rivers *Scioti* and *Little Miamis* on the northwest side of the river Ohio, in such proportions as have been engaged to them by the laws of Virginia.”

- The district lands are found in 23 counties from the Ohio River northward, between the Scioto and Little Miami Rivers, as far as 141 miles inland.
- Warrants used in the Kentucky Military District end with #4627. If research indicates a veteran received a higher number, it was most surely used in Ohio. We have also found earlier numbers might have been used in both states. If the "Authorized" field in our Revolutionary War Warrants Database is blank, we suggest you contact the Ohio Historical Society, 1982 Velma Avenue, Columbus, OH 43211 to research warrant usage.
- By Acts of Congress dated May 30, 1830, and August 31, 1852, Virginia military warrants could be exchanged for land scrip. Land scrip could be used to acquire any public lands open for entry at private sale, according to research on the Western Reserve. The Secretary of State's office is the place to start when researching Kentucky land acquisitions and seeking information about Kentucky's cities and counties.

In Kentucky, land is allocated via the patenting process. The Kentucky Secretary of State's office is the repository for all records pertaining to patents issued within the Kentucky boundary, including those issued by the state of Virginia prior to Kentucky's statehood in 1792. This website contains searchable databases and information regarding [military warrants](#) issued for service in the French and Indian War, Lord Dunmore's War and the Revolutionary War; [non-military warrants](#) and the resulting patents and a number of other databases.

You can also find on this website information about [Kentucky cities](#), including filings since 1942, classification, incorporation date, and status.

For additional information about Kentucky land records and related topics, please visit the Land Office's [Online Resources](#) page, which houses materials that will aid researchers in their study of the Kentucky land patenting process and Land Office databases.

If you would like to obtain copies of records maintained by the Land Office, please [print](#) and return or submit [online](#) a Land Office Order Form. Prepayment is not required; an invoice will be included when your order is returned to you.

In 1776, the Virginia General Assembly formed Kentucky County out of Fincastle County. The complete text of all [Acts](#) creating Kentucky's 120 counties, plus the Acts creating Fincastle, Kentucky, Beckham, Henrietta and Zollicoffer counties, is contained on this website.

Land in Kentucky is allocated by the land patenting process, which consists of four steps:

1. The warrant(s) authorizing the survey;
2. The entry reserving the land for patenting;
3. The field survey; and
4. The Governor's grant finalizing the patent.

Title is not conveyed until the grant is issued.

The Secretary of State's Land Office is the repository for all records pertaining to patents issued within the Kentucky boundary, including patents issued by the state of Virginia prior to Kentucky's statehood in 1792.

Kentucky land patents are divided into  [nine major groupings](#), each of which traces its origin to Acts of the Virginia or Kentucky General Assembly. In all instances the grantor is either the state of Virginia or the Commonwealth of Kentucky, and the grantee is the person or persons who receives the Governor's grant finalizing the patenting transaction. Images for patent files that have been scanned are available through the [Patent Series Overview](#) website; additional patent series will be made available online as they are scanned.

Early Kentucky settlers who made an improvement and planted a crop prior to January 1, 1778, were entitled to a 400-acre certificate of settlement and could purchase an additional adjacent 1,000 acres under a preemption warrant. Persons who made an improvement and planted a crop in Kentucky County, Virginia from January 1, 1778, through May 1779 could purchase a 400-acre preemption warrant. This office maintains a database of settlers whom the Land Commission deemed qualified for [Certificates of Settlement and Preemption Warrants](#).

Chapter XIII, Land Law B, passed in May 1779, expanded the land patenting process to include acquisitions under treasury warrants. Information for all entries in the [Virginia Treasury Warrants](#) Registers, Vols. I and II as copied by Edmund Thomas, Register of the Kentucky Land Office, and certified by William Prince, Register of the Virginia Land Office, is available online.

In 1780, Kentucky County, Virginia, was divided into three counties (Jefferson, Fayette and Lincoln), each of which had a principal surveyor who conducted field surveys and oversaw the work of deputy surveyors in the county. Entries for [Lincoln County](#) are listed on this website.

Occasionally, heirs and devisees filed Wills in order to finalize patents initiated by deceased family members. [Wills](#) that have been located by this office are accessible on this website.

The Jackson Purchase in Western Kentucky is the only portion of Kentucky mapped by the federal government's public surveying method. The [Jackson Purchase Locator](#) allows researchers to enter range, township and East/West coordinates to determine the location of a West of Tennessee River patent as defined by the 1885 Loughridge Map. West of Tennessee River patents are indexed in Jillson's *Kentucky Land Grants*, Vol. 1.

Certificates of Settlement & Preemption Warrants

Under the Virginia land law of 1779, any bona fide settler in Kentucky County (also known as the Kentucky District) prior to January 1, 1778, who had made an improvement and planted a crop of corn was eligible for a 400-acre certificate of settlement for the land he or she had improved. The settler could purchase an additional adjoining 1,000 acres under a preemption warrant. All those who had "marked out" or chosen unappropriated lands and built any house or hut or made improvements prior to January 1, 1778, but who could not prove actual settlement were entitled to a preemption of no more than 1,000 acres. (These warrants were issued for "chop claims" or "lottery cabin improvements.")

Anyone in Kentucky County, Virginia, after January 1, 1778, and before May 1779, when the Virginia Land Law was written, was eligible for a 400-acre preemption warrant for the tract on which he or she had made an improvement.

A Land Commission was appointed to hear testimony from Kentucky County residents and their witnesses. The Commission then decided who qualified for certificates of settlement, 1000-acre preemption warrants and 400-acre preemption warrants. The Commission's journal is contained in the [Doomsday Book](#).

The Certificates of Settlement and Preemption Warrants [Database](#) is indexed by warrant number, individual acquiring the certificate and warrant, immediate assignees and tract location; it includes scanned images of commissioners' certificates. Microfilm of the certificates and authorizations for preemption warrants is available at the Land Office, Kentucky History Center, Kentucky Department for Libraries and Archives, Filson Club, Sons of the American Revolution Library and the Library of Virginia.

Many of the search results on the Database link to patent files, which may be reviewed and printed in pane format through the Virginia and Old Kentucky Patent Series Database. Some counties in present-day Virginia and West Virginia are included in this index; please contact the Library of Virginia in Richmond, Virginia, for information regarding patents authorized by those preemption warrants.

For additional information regarding certificates of settlement and preemption warrants, please review the [frequently asked questions](#), read the article, "[Certificates of Settlement & Preemption Warrants Database](#)," or contact the Land Office at (502) 564-3490 or via [email](#).

CHAPTER II

An Act for giving further time to officers and soldiers to ascertain their claims to lands.

Approved October 1779

WHEREAS many officers and soldiers of the Virginia Line, now in the Continental Army, may have claims to lands on the western waters, from settlements or improvements made thereon, and have it not in their power to attend the commissioners appointed to adjust and ascertain such claims within the time limited for that purpose; for remedy whereof,

Be it enacted, That all officers and soldiers of the Virginia Line now in the Continental Army, shall be allowed twelve months from the time they resign, or are discharged from the service, to ascertain their respective claims to lands by settlements or improvements before the court of the county, wherein the lands they claim may be; and such court is hereby empowered and required to hear and determine such claims in like manner as is prescribed for the commissioners of the several districts on the western waters.

Patent Series Overview

Kentucky land patents are divided into [nine major groupings](#), each of which traces its origin to Acts of the Virginia or Kentucky General Assembly. In all instances the grantor is either the state of Virginia or the Commonwealth of Kentucky, and the grantee is the person or persons who receives the Governor's grant finalizing the patenting transaction.

The series are based on the type of warrant authorizing the survey, the location of the tract and the date the Governor's grant was issued. Most of the patent collection consists of patents authorized by warrants purchased from the Virginia Land Office, the Kentucky Land Office or County Courts.

Virginia Patent Series and Old Kentucky Patent Series

Patents under these series were authorized under 1779 legislation passed by the Virginia General Assembly establishing the land patenting process for appropriating land in Kentucky County and under the terms of a 1789 compact with Virginia by which Kentucky agreed to honor patents issued prior to its statehood on June 1, 1792. This [database](#) is still under construction, but files can be accessed by patent number or grantee.

West of Tennessee River Military Patents

The southern portion of the area known as the Jackson Purchase in western Kentucky was acquired from the Chicksaw Indian Nation in 1818. A number of Revolutionary War veterans, or their assigns, had settled in the area without clear title to their land holdings. In 1820 the Kentucky General Assembly approved legislation that instructed the veterans, or their assigns, to proceed with the land patenting process. This [website](#) includes information on 242 patents authorized by military warrants issued to Virginia veterans and scanned images of the patent files.

West of Tennessee River Non-Military Patents

On February 14, 1820, the Kentucky General Assembly passed legislation mandating the mapping of the Jackson Purchase into ranges, townships and sections. On December 21, 1821, the legislature provided for the sale of vacant fractional or complete quarter-sections (160 acres) in the Jackson Purchase. This [database](#) includes the names of persons who bought tracts at public land sales, their assignees, witnesses to assignments, grantees, cost of the tract and total acreage. It also contains links to scanned images for over 8,500 patent files. The Jackson Purchase Locator allows researchers to determine the location of the patented tract or, by entering coordinates, who patented sections and townships in the Purchase region.

County Court Orders

In 1835 the Kentucky General Assembly passed legislation that allowed counties to sell warrants authorizing surveys for patent applications. The County Court Order Series consists of 70,241 patents from 1835 to 2000. It is the largest patent series in this office, and the [database](#) is particularly useful to surveyors, engineers, land title researchers and lawyers involved in land litigation.

The remaining patent series (South of Green River, Tellico, Kentucky Land Warrants, South of Walker's Line and Warrants for Headrights) are not available online at this time. These series will be added when indexing and scanning is complete. Copies of files may be obtained via [online order form](#) or [emailing](#) the Land Office.

Virginia and Old Kentucky Patent Series

In 1779 the Virginia General Assembly passed legislation that established the land patenting process for appropriating land in Kentucky County. A variety of land warrants and special legislative acts could be used to initiate a patent. Under the terms of the 1789 Compact with Virginia, Kentucky agreed to honor patents issued prior to Kentucky's statehood on June 1, 1792. The land patenting process continued after statehood.

This website allows researchers to [access files](#) for both the Virginia and Old Kentucky Patent Series. The master database is under construction, but files can be accessed by patent number or grantee. A number of other search functions are also available:

- [Caveats](#) - Caveats were filed to halt a land patent in progress until a court could determine whether the land had previously been patented. Caveat papers often include references to the dates of settlement by the claimant, the claimant's county of residence and other information deemed necessary to prove a prior claim. Caveat papers may include the court's judgment affecting the issuance of the grant.
- [Unfinished Patents](#) - These warrants and surveys either did not result in Governor's grants finalizing patents, or the appropriate files have not yet been identified.
- [Unused Warrants](#) - Patents authorized by these warrants have not yet been linked to any patent files.

Land Office staff has compiled a list of [selected patents](#) that exemplify various warrants or historical references.

Military Registers & Land Records

Under the terms of the Proclamation of 1763, issued by England's King George III, soldiers who served in the French & Indian War and Lord Dunmore's War were paid with bounty land warrants. The soldier's rank determined the acreage awarded by the warrant. The warrants were used to obtain land patents.

The same principle of "land for military service" was used to pay soldiers of the Revolutionary War. Each colony determined the acreage per rank, requisite duration of service and location of its respective military district. The Military District for Virginia was located in southwestern Kentucky and southcentral Ohio. The [Revolutionary War Warrants](#) website contains information regarding military warrants issued to Virginia veterans prior to 1792 and all Kentucky patents authorized by those warrants, and the database indexes 4,748 bounty land warrants issued by Virginia to veterans of the Revolutionary War.

In 1818 the Jackson Purchase in Kentucky was acquired from the Chickasaw Indians. A number of Revolutionary War veterans or their assigns had settled in the area without clear title to their land holdings, and in 1820 the Kentucky General Assembly approved legislation that instructed the veterans or their assigns to proceed with the land patenting process. The [West of Tennessee River Military Patents](#) website includes information on 242 patents authorized by warrants issued under this legislation.

Military Land Office

On July 20, 1784, the Land Office for the Virginia Military District was opened near Louisville. Colonel Richard Clough Anderson was the Principal Surveyor for veterans serving in the Virginia Continental Line, and Major William Croghan and General George Rogers Clark were appointed Principal Surveyors for veterans serving in the Virginia State Line (or Militia). Due to the size of the Military District, a number of deputies assisted the Principal Surveyors.

In 1879 the Kentucky General Assembly abolished the office of surveyor of military lands. The "present incumbent of that office" was ordered to send all books, papers and documents pertaining to his office to the Register of the Land Office "by the safest and cheapest mode of conveyance." 1879 Acts, Chapter 105, Article IV.

Revolutionary War Warrants Database

This database includes 4,748 bounty land warrants issued by Virginia to veterans of the Revolutionary War. Warrants, the first step in land patenting, were given as payment for military services; the allotment was determined by the soldier's rank and time of service, and the land was located in the [Revolutionary War Military District](#). Patents issued for service in the Revolutionary War are filed with the Virginia Patent Series (VA), Old Kentucky Patent Series (OK) and the West of the Tennessee River Military Patent Series (WTRM).

Warrants can be [searched](#) by veteran's name, warrant number and immediate assignee. Scanned images from the military warrants register are included for each warrant number. The "authorized" field identifies the patent(s) authorized by each warrant. If the warrant did not authorize a patent in Virginia's Military District in Kentucky, there is no further information available in the Kentucky Land Office for that warrant. For assistance with researching Revolutionary War Warrants, please consult the [Research Help](#) section of this website.

For more information about Revolutionary War warrants in Kentucky, please review the [frequently asked questions](#) or contact the Land Office at (502) 564-3490 or via [email](#).

Enter Veteran Name:

Search by complete name or surname. Format the complete name by first keying the veteran's surname then his given (first) name. Example: Marshall, Thomas. By keying Marshall, you will see a complete listing of all veterans with the Marshall surname. A minimum of four characters must be entered. Use % as the fourth character, if necessary.

Enter Warrant Number:

Our database indexes 4,748 Virginia Revolutionary Warrants. There are 121 duplicate numbers, therefore our warrants range in number from one to 4,627. Contact the Ohio Historical Society in Columbus for Virginia warrants with higher numbers than 4,627. To search by warrant number, key the entire four-digit number. Example: Warrant #1 must be keyed as 0001. Information for two military warrants may appear if the number was duplicated by the land office. Simply select the number that corresponds to the veteran's name you are searching.

Enter Immediate Assignee:

Many Revolutionary War veterans sold their warrants. This database identifies individuals who purchased veterans' military warrants shortly after the warrants were issued. Heirs of deceased veterans may also be listed as the veteran's assignee. Search immediate assignees by complete name or surname. Format the complete name by first keying the assignee's surname then his given (first) name. Example: Anderson, Richard. By keying Anderson, you will see a complete listing of all assignees with the Anderson surname. A minimum of four characters must be entered. Use % as the fourth character, if necessary.

To expand the search, we suggest researchers access the Kentucky Historical Society publications ["Master Index: Virginia Surveys & Grants"](#) and the ["Index to Old Kentucky Surveys & Grants"](#) available on the Kentucky Historical Society website. Use numbers in the "Original Survey Number" field in both publications to access patents on this database. Patents for which duplicate numbers were issued, such as 5079 are viewed as 5079#1 and 5079#2 in Historical Society publications. For this database, the numbers will be depicted as 5079.1 and 5079.2.

PATENT MAPS

- Although no master patent map was constructed by the Virginia or Kentucky Land Office, many local historians have researched Kentucky land patents and developed patent maps for their area. Contact your local historical society, county surveyor, county clerk, or library to determine if patent maps exist for the area in which you are interested.

Construct a Map!

- Run your chain of title back to patent. Find a survey that can serve as an “anchor patent” then place the patent on a topo map. (Topo maps are available online or from the UK Geological Survey Office in Lexington.)
- Use traditional methods for survey plotting or access the internet for software to plot the deeds emanating from the patent.
- Visit the site, walk the land, find a long lost cemetery, and enjoy the view your ancestors enjoyed years ago. It can be done!
- Donate a copy of your map to your local historical society for future researchers to enjoy.

[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets and footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indcipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected. For example, the software transcribes "the eighth of June one thousand eighty six" as "the 8^o of June 1786." Please call material errors or omissions to my attention.]

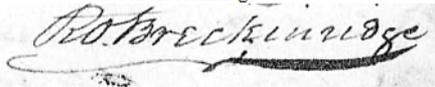

For the purpose of obtaining the benefit of an act, entitled "An Act for the relief of certain surviving Officers and Soldiers of the Army of the Revolution" approved on the 15th day of May 1828; I Robert Breckinridge of the City of Louisville, in the County of Jefferson and State of Kentucky do hereby declare that I was an officer in the Continental line of the Army of the Revolution. That my first service was in the 8th Virginia Regiment from which I was transferred, or arranged, to the 4th Regiment with the rank of Lieutenant, which was ordered, under the command of Colonel Nevill [John Neville], to the defense of Charlestown [sic, Charleston] in South Carolina, where, upon its fall in the month of May 1780 [May 12, 1780], I was made prisoner – that I was exchanged in the month of June 1781, and ordered to Join a Corps of Infantry then organizing at Cumberland Court house in the State of Virginia. That the said Corps marched under the command of Colonel Posey [Thomas Posey] to the South and Joined the Army under the command of General Greene [Nathanael Greene] – and that I remained in the service as an officer till the end of the War.

In support of the foregoing statement I send enclosed my commission as a Lieutenant, Parole, and Certificate of Exchange.

I also declare, that I afterwards received Certificates commonly called commutation certificates for a sum equal to the amount of five years full pay, which sum was offered by the Resolve of Congress of the 22nd of March 1783 instead of half pay for life, to which I was entitled under the Resolve of the 21st of October 1780. And I further declare that I have received no money of the United States as a pensioner since the 3rd March 1826

Witness my hand this 27th day of June 1828.

S/ RO Breckinridge

[Worden Pope and Abraham Hite gave the standard supporting affidavit.]

Revolutionary Claims
Treasury Department,
July 26, 1828

Robert Breckinridge of Louisville in the County of Jefferson in the State of Kentucky has applied to the Secretary of the Treasury for the benefits of the act, entitled "An act for the relief of certain surviving officers and soldiers of the Revolution," approved the 15th of May, 1828. He states that was an officer in the Continental line, and served as such to the end of the war, at which period he was a Lieut. serving in Posey's Detachment of the Virginia line; and that he received

¹ BLWt273-200—Lieut. Issued Apr. 4, 1790, No Papers

commutation certificates for the five years full pay granted by the resolve of 22 March, 1783; and, further, that he has received as a pensioner since the 3rd of March 1826, nothing dollars, paid to him by the agent in the State of ___

The Third Auditor is requested to report how far the several statements are corroborated by the records in his Office.

By order of the Secretary
S/ F. A. Dickins

Treasury Department,
Third Auditor's Office,
21st July 1828

It appears by the records of this office, that final settlement certificates had been issued for the commutation of five years full pay to Robert Breckenridge Lieut. in the Virginia line, amounting to Sixteen Hundred dollars.

It further appears that Robert Breckenridge is not now on the pension list of any agency, and has not been so since the 3rd of March 1826 at the rate of ___ per month.

S/ Peter Hagner, Aud.

[There is a note in this file as follows:

"Commission, Parole and Exchange not on file in this case. P. S. C. Nov. 7 1912.

And as claims under this Act were adjudicated in the Treasury Department, it is not possible now to trace them up. AW Nov. 15, 1912."]

[Another note in this file reads:

"Commission No. 8 in favor of Robert Breckenridge as Lieut. in the 4th Virginia Regiment to rank from 4th of April 1778 and dated 20th March 1779."]

Enter Veteran Name:

Search by complete name or surname. Format the complete name by first keying the veteran's surname then his given (first) name. Example: Marshall, Thomas. By keying Marshall, you will see a complete listing of all veterans with the Marshall surname. A minimum of four characters must be entered. Use % as the fourth character, if necessary.

Enter Warrant Number:

Our database indexes 4,748 Virginia Revolutionary Warrants. There are 121 duplicate numbers, therefore our warrants range in number from one to 4,627. Contact the Ohio Historical Society in Columbus for Virginia warrants with higher numbers than 4,627. To search by warrant number, key the entire four-digit number. Example: Warrant #1 must be keyed as 0001. Information for two military warrants may appear if the number was duplicated by the land office. Simply select the number that corresponds to the veteran's name you are searching.

Enter Immediate Assignee:

Many Revolutionary War veterans sold their warrants. This database identifies individuals who purchased veterans' military warrants shortly after the warrants were issued. Heirs of deceased veterans may also be listed as the veteran's assignee. Search immediate assignees by complete name or surname. Format the complete name by first keying the assignee's surname then his given (first) name. Example: Anderson, Richard. By keying Anderson, you will see a complete listing of all assignees with the Anderson surname. A minimum of four characters must be entered. Use % as the fourth character, if necessary.

Names in the drop-box listings are limited to recipients of the Grant (Grantees); names are not cross-referenced.

To expand the search, we suggest researchers access the Kentucky Historical Society publications ["Master Index: Virginia Surveys & Grants"](#) and the ["Index to Old Kentucky Surveys & Grants"](#) available on the Kentucky Historical Society website. Use numbers in the "Original Survey Number" field in both publications to access patents on this database. Patents for which duplicate numbers were issued, such as 5079 are viewed as 5079#1 and 5079#2 in Historical Society publications. For this database, the numbers will be depicted as 5079.1 and 5079.2.

- To obtain images for a specific series, first select the series in the first combobox. Then sort numerically by patent number or alphabetically by grantee.

Declaration in order to obtain the benefit of the act of Congress passed June 7, 1832. At a Circuit Court held for the County of Pulaski & State of Kentucky and on the 16th day thereof 1833 personally appeared before the Court aforesaid John Newby a resident of the United States in the County of Pulaski and State of Kentucky aged 74 years having been born in February 1759, who being first duly sworn according to law doth on his oath make the following declaration in order to obtain the benefit of the provisions of an act of Congress passed the 7th of June 1832. That he enlisted as a Soldier on the 16 of August 1777 in the Army of the United States, with Thomas Clay & served in the Second State Regiment of artillery under the following named officers (viz.) Henry Quarles Captain Thomas Marshall Junior Lieutenant James Lipscomb 2nd Lieutenant under the command of Colonel Thomas Marshall Senior and was discharged by John Mazratt [John Mazaret or Mazarett] Major in Richmond Virginia on the 21st of August 1780 which discharge was filed with the proper office at Richmond to obtain a Warrant by which he could procure bounty land of 100 acres and which land he thereby obtained and is now living on the said land which was patented to him by the Commonwealth of Kentucky on the 15th of June 1801 and that is the reason that the said John Newby cannot procure the discharge. He knows of no person by which he can establish his services living and within his reach to procure the testimony of, that he resided in Chesterfield County Virginia when he entered the Service and marched to Williamsburg the place of rendezvous thence to little York thence to Hampton thence back to little York where he was stationed more than 2 years, thence to Williamsburg from thence through Virginia to North Carolina then to South Carolina & thence back to Richmond and there was discharged during his service Colonel Thomas Marshall was appointed Surveyor General as he understood of the Waste lands [??]¹ belonging to Virginia and Elias Edmunds commanded the Regiment after Marshall's appointment, John Mazratt was Major and the Colonel being absent the Major gave the Discharge as before stated. Thomas Clay was Captain and James Lipscomb was Lieutenant. He hereby relinquishes every claim to a pension or an annuity except the present and declares that his name is not on the pension roll of any agency in any State and if it is he has no knowledge of it. Sworn to and subscribed in Open Court this 24th of October 1833.

S/ John Newby

[Wesley Carson, a clergyman, and John Jasper & Tunstal Quarls gave the standard supporting affidavit.]

[Facts in file: veteran died December 18, 1852. There is no family data in this file.]

[Veteran was pensioned at the rate of \$100 per annum commencing March 4th, 1831, for service as a private of artillery for 2 years in the Virginia Continental line.]

[From [bounty land records in the Library of Virginia](#)]

John Newby A soldier in Colonel Marshals Regiment of Artillery having faithfully served three years the term of his Inlistment is hereby discharged from the said Regiment. Given under my hand this 22nd day of August 1780

Assignment by John Newby to John W. Newby recorded on the back of a survey of 3 acres in Pulaski County. Filed as Patent No. 7491 in the Kentucky Land Warrant Patent Series.

QUICK GUIDE: KENTUCKY LAND PATENT SERIES

- The patent series indicates what types of warrants were used to authorize surveys. Each series is based on time period and land location. The nine major groupings are as follows:
- **Virginia Series** (Grants issued prior to 1792) -- 9,441 surveys
- **Old Kentucky Series** (Grants issued from 1792-1815) -- 7,668 surveys
- Patents in the Virginia and Old Kentucky Series were authorized by French and Indian War Warrants, Treasury Warrants, Importation Warrants, Acts for the Relief of Certain Poor Persons, Acts for the Establishment of Academies and Seminaries, Warrants for Finding Salt, Warrants for Clearing Roads, Certificates of Settlement, and Preemption Warrants.
- **South of Green River Series** (Grants from 1795 forward) -- 16,664 surveys
- This series opened the Military District to settlement by non-veterans. County commissioners approved the issuance of warrants/certificates to residents purchasing no more than 400 acres of unappropriated land. Applicants had to meet age and residency requirements and they had to have occupied the land one year prior to application. An improvement, such as a cabin or a crop, was also required. The original 1795 Act of the General Assembly required the applicants to be 21 years of age or older. The minimum age was lowered in 1798 to 18. Due to errors in patent series assignments, a number of patents in the South of Green River Series are located outside the region. Some are as far north as Pendleton County.
- **Tellico Series** (Grants in southeast Kentucky) -- 590 surveys
- This area was purchased from the Cherokee Indians in 1805. Under the Act of 1810, settlers meeting the six-month residency requirement could patent up to 200 acres of land by paying \$40 per 100 acres. Due to errors in patent series assignments, a number of patents in the Tellico Series fall out of the Tellico Region.
- **Kentucky Land Warrant Series** (Grants from 1815 forward) -- 26,080 surveys
- These warrants were purchased or issued by the Kentucky Land Office. Many were authorized by the General Assembly for the development of Kentucky's infrastructure, i.e., proceeds from warrant sales were used to build roads.
- **South of Walker's Line Series** (Grants from 1820 forward) -- 4,327 surveys
- These patents are located in northern Tennessee. They generally run to the 36 degrees 30 minute parallel or the baseline of the Jackson Purchase. The Kentucky Land Office has patent records for the following Tennessee counties: Sumner, Smith, Robertson, Macon, Montgomery, Stewart, Jackson, Claiborne, Clay, Fentress, Pickett, Scott and Campbell.
- **West of Tennessee River Military Series** -- (Grants from 1821 to 1828) -- 242 surveys
- This area was purchased from the Chickasaw Indians in 1818. A number of Revolutionary War soldiers occupied the land, known later as the Jackson Purchase, without having clear title. In 1820, the Kentucky General Assembly advised the veterans to immediately file for patents.
- **West of Tennessee River Non-Military Series** (Grants from 1822 to 1900) -- 9,308 surveys
- While the Revolutionary War veterans were patenting their land, the Jackson Purchase was being mapped in ranges, townships and sections by William Henderson. In 1821, the General Assembly authorized the auctioning of "odd sections" in the West of Tennessee River area. Sales would be held in Princeton. Upon presentation of a receipt, the Register issued a certificate authorizing the grant. In 1825, public sales were authorized in Wadsborough in Calloway county. The state set a minimum price per acre for the land sales. By 1835, that price had been reduced to 12.5 cents per acre.
- **County Court Order Series** (Grants from 1835 to present date) -- 70,238 surveys.
- In 1835, the General Assembly granted county courts the right to issue warrants authorizing surveys. Fees are set locally, however, the law requires a minimum of \$5 per 100 acres of unappropriated land. The County Court Order Patent Series is codified in Chapter 56 of the Kentucky Revised Statutes.

1805 Pulaski Co., Ky. Tax Lists

RESEARCHING TAX LISTS

- Tax Lists are available on microfilm at the Kentucky History Center, KDLA, and LDS Libraries. (We have found different repositories may have different information.) Some county tax lists include tithable reports prior to 1792.
- County tax lists from 1795 to the mid-1830's, may provide critical information regarding original land patent recipients.
- Tax lists should span from the year of county formation through the mid-1880's.
- Study Acts of the General Assembly to determine tax laws.
- Women, Free Blacks (40 years before the Civil War), & Pensioners are included on Tax Lists; occasionally they are listed as exempt.
- Tax Lists may include two or three districts.
- The "Company" header identifies the name of the Captain of the Militia Company receiving the taxes.
- Minors, if they are the head of the household, are included on tax lists.
- Tax Lists are no longer available from KDLA for duplication.
- Tax Lists may be viewed on the Family Search website hosted by the Church of Latter Day Saints.
- Tax Lists may serve as an "Annual Census"—"hiding from the tax man" had severe penalties.

Other Kentucky Land Records

- **DEEDS:** Transactions after land is patented.

Filed on the county level with the county clerk. May also be researched by contacting the Kentucky Department for Libraries & Archives, Frankfort.

There is no central registration of Deeds in Kentucky. Remember county formation dates!

Establish a “chain-of-title” by starting with present owners then working backward through county records to identify past owners (the next links in the chain). Ultimately most deeds refer to the initial patent.

TYPES OF DEEDS

- **Commissioners' Deeds**

Land sales conducted by the Master Commissioner for delinquent taxes, mortgage forfeitures, etc. May be indexed in a separate book by the county clerk. If recorded with the Deeds, may be listed as "Commissioner" in the Grantor Index rather than the property owner's name.

- **Processioners' Deeds**

Processioners are appointed by the court to divide lands involved in an estate settlement or property dispute. These deeds often include plat drawings of the divided property and their designated owners. Deeds may be recorded in the county clerk's office with other county deeds or may be included in separate volumes. These deeds may also be part of the final estate settlement papers filed with the circuit court clerk.

- **WILLS: BEQUEATH PROPERTY**

In some instances you will find property transferred in Kentucky by Will rather than by Deed. Wills often include plat drawings of divided property including names of designated owners. Wills are filed on the county level with the county clerk. Early estate settlements may be found with the county clerk; for more recent settlements, contact the circuit court clerk.

- **LAND PATENTS**

If a land patent hasn't been sold, the wording on the Grant conveys the patent to the patentee's heirs. In many instances that conveyance is not recorded with the county clerk. It is important for the heir(s) to register their land ownership with the Property Valuation Administrator for taxation purposes.

(Note: Transfers of patents between individuals often result in an assignment on the Grant and the transfer isn't recorded with the county clerk. Again, registration for tax purposes may be the only indication there is a new owner for the tract.)

QUICK GUIDE: KEY POINTS TO REMEMBER

- The federal government does not issue land patents in Kentucky. Kentucky patents are authorized by Acts of the Virginia General Assembly (prior to 1792) or the Kentucky General Assembly.
- Warrants do not identify a certain tract or location.
- Neither warrants nor surveys convey title. Every step in the patent process must be followed. The Governor's Grant finalizes the patenting transaction.
- Military grants comprise a small portion of Kentucky land patents. Most patents were authorized by purchasing treasury, state, or county warrants/certificates.
- The only military warrants honored in Kentucky were for service in the French and Indian War and the Revolutionary War.
- Kentucky did not honor warrants for service in the War of 1812, the Mexican War, or subsequent conflicts. Those warrants had to be used in federal public domain states, such as Missouri or Illinois. (This partially explains the move westward by some Kentucky veterans or assignees; they had to relocate to a state that honored federal bounty land warrants.) Contact the Central Reference Division, National Archives, Pennsylvania Avenue, 8th St. NW, Washington, D.C. 20408 for information regarding military service, federal bounty land, and pension applications.

RECORD OF PATENTS: Patent Number 236782

- The Secretary of State's Office is the repository for over 100,000 patent files containing warrants, surveys, and grants. Researchers do not have to travel to Virginia to research Kentucky land patents prior to 1792. Those records were sent to Frankfort shortly after Kentucky became a state.
- Kentucky county formation must be considered when researching any facet of Kentucky history.
- There is no central registration of deeds in Kentucky. Deeds are filed on the county level with the county clerk along with wills and marriages. Courthouse disasters, such as fires or thievery, are just that -- disasters. Records not previously microfilmed or removed for preservation are lost. Check the Grantor AND Grantee indices; some conveyances may be recorded in one book but not the other. Research proceSSIONERS' books and court judgments for division of disputed or inherited land.
- Be creative when researching land patents and all land records! Names were spelled phonetically in many instances. Tax Lists may be indexed by given name rather than surname!

- Patents were issued to women as early as the 1700s. In some instances, they were heirs finishing patents initiated by their husband or a family member. In 1820, the Kentucky General Assembly allowed poor widows to patent up to 100 acres of land without fee payment.
- African-Americans patented land in Kentucky prior to the Civil War.
- Land Office holdings are limited to land patents only. Although applications listing parents, family history, etc., were not required, there are instances in which wills, or other affidavits of descent, are part of the patent file.
- Not all Kentucky Patent Series are online. Contact the Kentucky Land Office for access to original patent files. The Kentucky History Center Library has printback books of Land Office Surveys and Grants. (These are ideal for researching an area rather than a family.) Microfilm reels of all original Warrants, Entries, Surveys, and Land Office copies of Grants are available at the Kentucky History Center.
- The Kentucky Department for Libraries & Archives is the state repository for county records, such as Wills and Deeds.

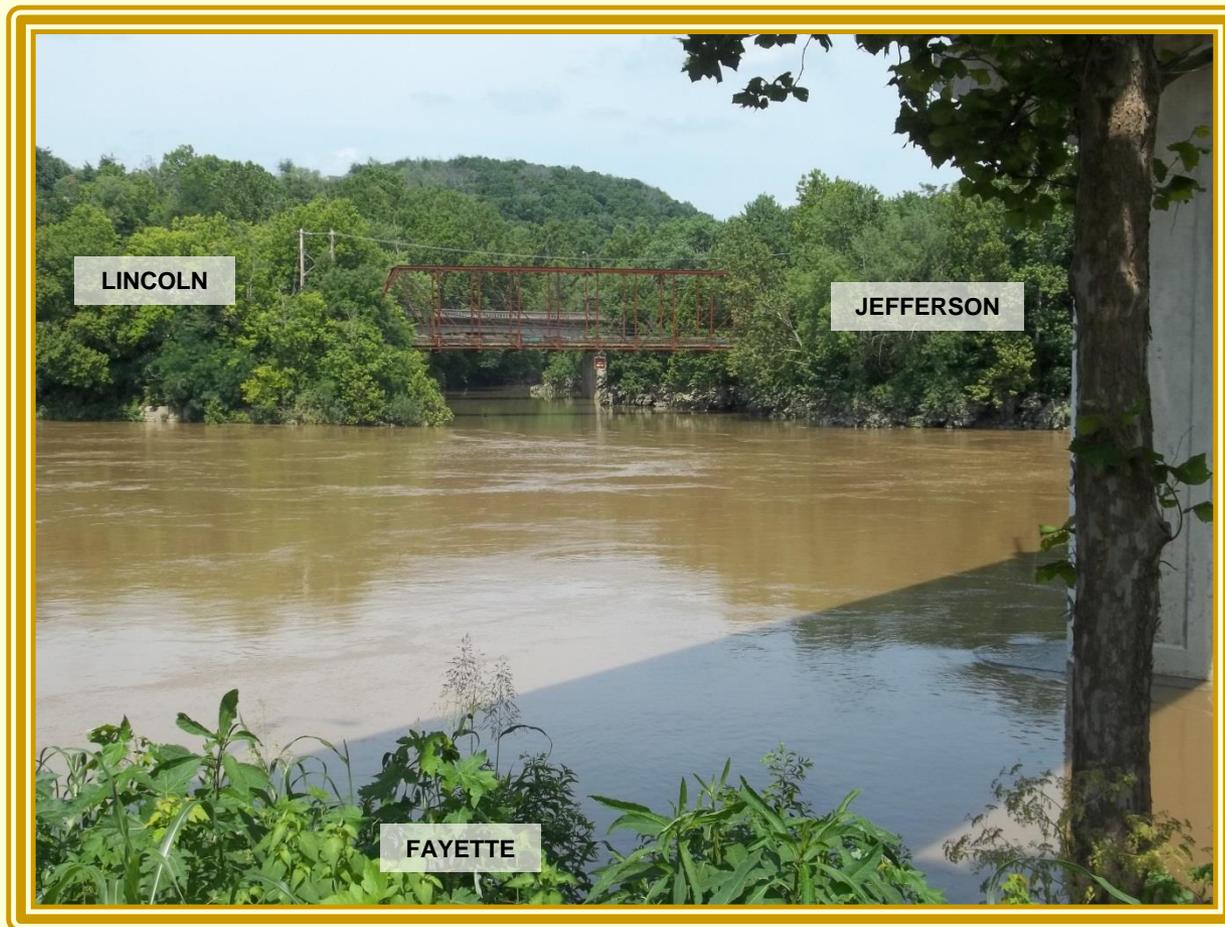

OTHER RESOURCES

- Court cases can provide valuable information if an area has been litigated. Case files may include deed references, affidavits, maps, & court decisions.
 - Circuit Court Records may be available locally or at the Kentucky Department for Libraries & Archives, 300 Coffee Tree Road, Frankfort, KY 40601 (502-564-8300).
 - Contact the State Law Library, Capitol Building, Frankfort, KY 40601 (502-564-4187) for cases decided by the Kentucky Court of Appeals, Kentucky Supreme Court, & courts of higher jurisdiction.
- District or Regional Mining Offices: Maps, Deeds, & Leases

BOOKS & PUBLICATIONS

- “Kentucky Land Grants” by Willard Rouse Jillson lists grant recipients for all patent series with the exception of the West of Tennessee River Military Patents.
- “Old Kentucky Entries & Deeds” by Willard Rouse Jillson identifies persons who filed Entries in early Fayette, Lincoln, & Jefferson counties as well as the Military District. Revolutionary War Warrants are also included as well as an index of Court of Appeals Deeds.
- “Stockading Up” by Nancy O’Malley, Dept. of Anthropology, UK, is a compilation of patent maps, history and genealogy regarding early settlers and stations in central Kentucky.
- “Early Kentucky Land Records” by Neal Hammon lists Fincastle and Kentucky County Entries, Commissioners’ Records, and Military Surveys.
- “Early Landowners of Madison County, Kentucky,” Researched, Compiled, & Published by Robert P. Humphreys, PhD. Includes CD depicting location of patents. *(May be ordered online by searching for title of book.)*
